

COMP283 Assignment Two - Scenario One part Two

The Small Cinema

The Roxy is a small privately owned cinema in Liverpool with three cinema screens. The largest screen seats 440 (22 rows of 20) people, the two others each both seat 200 (20 rows of 10) people.

In an attempt to appeal to more people, the management of The Roxy have decided to update their web site to include user reviews of movies. You will need to modify the database to include this facility. This means that the database must have the following new features:

Movies must have ratings

Users must be able to sign up to the site and once signed up, can submit reviews of movies.

Reviews are held for moderation by admin users from the cinema. Once checked the reviews are either made public or else they are marked as unsuitable. Users leaving more than four unsuitable reviews are blocked from leaving movie reviews
