By Monday, 13 October 2008, do the following:

1. Read the three papers you were given.
2. Take note of the structure of the three papers. Is there a common structure to the papers? If so, what is it?
3. Make a list of five to ten concepts that you did not understand, use the internet to find definitions or explanations of those concepts, and make a note of those as well as of their sources.
4. For each of the papers list at least three claims that they put forward and note what evidence they provide to support those claims.
